

LINDAU NOBEL LAUREATE MEETINGS

Lindau, 6 November 2020

Media Advisory

Council Meeting: Results Regarding Lindau Meetings 2021 and 2022

- Plans Confirmed for the 70th Anniversary Meeting in 2021
- 7th Lindau Meeting on Economic Sciences Postponed to 2022

At its autumn meeting, the Council for the Lindau Nobel Laureate Meetings updated the planning for the upcoming Lindau Meetings. Thus, the 70th Lindau Nobel Laureate Meeting (Interdisciplinary) will take place as announced from 27 June – 2 July 2021.

On the occasion of this anniversary, Nobel Laureates and young scientists will be able to participate in Lindau – of course under the then applicable conditions, to which the organizers will react flexibly. For those participants and guests who cannot travel or do not wish to do so for personal reasons, there will be the possibility to take part in the meeting online.

As regards the Lindau Meeting on Economic Sciences, the Council agreed on a change of plans: In order to enable participation for as many international Nobel Laureates and young economists as possible, especially those from overseas, the 7th Lindau Meeting on Economic Sciences will be postponed for another year, taking place from 23 – 27 August 2022.

Overview next Lindau Meetings:

70th Lindau Nobel Laureate Meeting (Interdisciplinary), 27 June – 2 July 2021

71st Lindau Nobel Laureate Meeting (Chemistry), 26 June – 1 July 2022

7th Lindau Meeting on Economic Sciences, 23 – 27 August 2022

About the Lindau Nobel Laureate Meetings

Since their beginnings in 1951, the Lindau Nobel Laureate Meetings have evolved into a unique international forum for scientific exchange. The annual meetings foster the exchange of different generations, cultures, and disciplines. The meetings focus alternately on physics, chemistry, or physiology and medicine – the three natural science Nobel Prize disciplines. An interdisciplinary meeting revolving around all three natural sciences is held every five years and the Lindau Meeting on Economic Sciences is held every three years. Within the framework of various declarations (2015 on climate change, 1955 against the use of atomic weapons), the scientists have, again and again, played a part in bringing political pleas to public debate.

It was two Lindau physicians, Franz Karl Hein and Gustav Wilhelm Parade, who approached Count Lennart Bernadotte af Wisborg to jointly develop and implement the idea – in 1953 young scientists were invited to join the meetings. Roughly 35,000 students, doctorates and post-docs have participated since then. The Meeting itself is experienced literally only once but the young scientists belong permanently to the Lindau Alumni Network, are connected with each other through that network, and are ambassadors of scientific dialogue.

The Lindau Nobel Laureate Meetings are active year-round with their “Mission Education” highlighting the meaning of the knowledge society and supporting science and research. This goal serves for the development of their in-house online mediatheque into a learning platform for teaching materials for schools among other things.
